

**Smashing test of ACCUSTIC ARTS AMP II-MK2 in STEREO 12/09:
Highest rating of 5 stars and incredible 100% for sound quality**

Here are some quotes of well know STEREO editor Tom Frantzen:

"Super amplifier from Germany"

"... the ultimate tip for music lovers, as there has never been so good value for the money to enter the class of the top of the line reference amplifiers on the market.!

"Homogenous, versatile usable, practically perfect. And for the highest of all classes an incredible bargain."

The AMP II - MK 2 is therefore the absolutely best and at the same time lowest priced amplifier of the reference class in STEREO's extensive test listings.
Now that I call a statement ;-)
